Checking your browser version

For security and reliability, Imagine Edgenuity only supports browser versions released within the last 6 months. If the browser's version is not up to date, students and teachers may experience the following while using Imagine Edgenuity:

- Difficulty logging in

- Difficulty continuing to the next activity

- Abnormally slow loading of pages

You will always want to use the Chrome Browser.

Checking your browser version

Here's how you check the version for some of the most-used browsers:

Chrome: [Chrome Help: View Chrome version details](#)
